Super Flags & Flagpoles
Complete Instructions & Help

__Basic Instructions

Only the Object's Owner can use the settings.

Touch the Flag to select a texture from built-in menu.

- 40 Countries / Nations (full list below)
- 50 US States
- 11 Miscellaneous (full list below)

Touch the Pole for options.

- Turning Flag whipping Sounds Off/On
- Selecting a preset pole color design
- And getting this note

__Customizing your Flag Pole

_Using your own Textures

To change the flag texture open the object in EDIT. Be sure the "Edit Linked Parts Box" is checked. Click on "More >>" and go to the TEXTURE tab. Click on the flag prim so only it is selected. Change the Texture/Color. (Do not choose "Select Texture.")

Same thing for the Pole objects, use "Edit Linked Parts" and select the two pieces before changing their textures/colors.

_Resizing the Object

It is not suggested that resize the object. Unlinking the object or linking it to other objects will break it. If you do resize the object, be sure to have "Edit Linked Parts" checked in EDIT and resize each prim individually.
