The Return Teleporter says 'Please Wait...' but never loads.

Be sure to have a number next to every PayPrice in the settings notecard for the Pay Teleporter. Even if you're not using a payprice, just set it to 0, so it has something there.

THIS IS THE CORRECT WAY
Quote:
PayPrice1=75
PayPrice2=150
PayPrice3=0
PayPrice4=0
Remember, if you have TotalRentalTimes=2, it's not going to read the final 2 anyways. So have something for them, like 0.

THIS IS WRONG AND CAN CAUSE PROBLEMS
Quote:
PayPrice1=75
PayPrice2=150
PayPrice3=
PayPrice4=
