## [\[RESOLVED\] Brief Interruption in Web Services](#)

Category : [Announcements](#)

Published by Alicia Stella on Jan-18-2015

[9:30 AM PST] Web services should now be restored and Visitor Trackers should be operating again.

[Sunday, January 18, 2015 9AM PST] We're experiencing a brief interruption in web services and are working to bring everything back online.

Last night the Visitor Trackers went offline, and in bringing them back online it will take a brief while to let them all check in and store yesterday's data. When they have all completed things should go back to normal working order, hopefully shortly.

Will post updates here, as they happen.
