## [NEW PRODUCTS: Four New Full Perm Scripts](#)

Category : [Announcements](#)

Published by Alicia Stella on Jun-12-2015

Four new full permission script sets have been released! They're perfect for commercial use in your own products. They are Math Captcha, Notecard Settings Load, Advanced Unpacker Script, and Color Menu Script. You can get them in-world at the [ASD Scripts Store](#) or on the [SL Marketplace here](#)! Learn more and click on the links below for more information.

Scripts in these sets can be used in your commercial products. Please do not resell or give away scripts on their own.

Scripts are all: Modify / Copy / Transfer

### [Math CAPTCHA Script](#)

Add math-based CAPTCHA to your items and scripts! Users answer addition and/or subtraction problems to gain access. Users must enter answers into textbox using their keyboard.

Purchase: [Marketplace](#) | [In-World](#)

### [Notecard Settings Reader](#)

Add a configuration notecard with settings load to your scripts or products with ease. Replace the settings in the sample note and script to your own settings. This product requires some scripting knowledge to use.

Purchase: [Marketplace](#) | [In-World](#)

## [Advanced Unpacker Script](#)

Drop this single script into a box with your products, documentation, landmark, etc. and it can give your customers customized messages, group invites, and more on rez and when unpacked. Will deliver all the items in the box to owner. And it does all this with just one script!

Purchase: [Marketplace](#) | [In-World](#)

## [Color Menu Script](#)

Add color select menu to your own products. User selects from 10 color categories and over 60 different colors. Once selected the object is changed to that color. Can be used for main prim or all prims in object.

Purchase: [Marketplace](#) | [In-World](#)
