
[NEW PRODUCT: Advanced Announcer Set](#)

Category : [Announcements](#)

Published by Alicia Stella on Sep-04-2015

The Advanced Announcer is a club announcer, chat extender, and PA system in one!

This set includes everything you need to make both automated and manual announcements at your club, venue, or business. You can use it to announce events or contests, reminders to tip the DJ or dancers, new products at your store, or let visitors know about any promotions you currently have.

Three great ways to use this product:

â◻° Stand Alone Announcer Object

Object announces messages set in notecards in Say, Shout, or Whisper

â◻° Announce to Speakers Anywhere in Your Sim

Object announces messages to objects located throughout a sim

â◻° Relay Chat to Speakers Anywhere in Your Sim

You or staff wear HUD that relays everything you say to objects in sim

You can use one or all of the functions listed above, depending on your needs, and it's easy to get started.

Purchase Advanced Announcer: [In-World](#) - [SL Marketplace](#)

For automated announcements you can have unlimited messages in up to 11 notecards inside the object. Select the notecard you want to read from and whether to announce randomly or in order. You can assign staff members, or a group, allowed to control the Announcer. They can turn it on/off or change the notecard depending on the day's needs.

For the chat relay function this set includes a HUD that can be given to staff members. When the HUD is worn, everything the wearer says is repeated by "Speaker" objects placed throughout the sim. The speaker objects can Say, Shout, or Whisper the announcements.
