Published by Alicia Stella on Jun-25-2019

This Pride Flag Giver looks great on your desk, store counter, or at your events! Gives anyone that touches an LGBTQ+ Pride handheld flag. Mini flags that are given out include a basic flag waving animation.

Object owner can touch for special menu. Owner can select a different base color, floating text color, or turn floating text/on off by menu. Select "Reset All" to revert to defaults. Base object itself modifiable, but scripts included are not modifiable.

Note: Object may need to be moved down a bit after rezzing, as it tends to rez a little above the surface.
