ASD Web Tools to End Service

Category : **Announcements**
Published by Alicia Stella on Apr-08-2020

Dear Supporters,

It is with a heavy heart that I am announcing today that all of the web-enabled products from Alicia Stella Design will end their service life as of April 15, 2020.

The full list of items that will no longer function after April 15th is below. It includes items like the Tipping Server, however, Tip Jars and other tipping devices will still function without the server, just without web functions. Other devices that rely entirely on the web to function, including the Raffle System, will cease to function entirely. The Web Tools website will not be available to users as of April 19, 2020.

I have not reached this decision lightly. After 13 years of serving the Second Life community with web-enabled offerings I am sad to have to end this era of my life and career.

Many of my other products will remain for sale on the Marketplace, and some will be available at a discounted rate. Products from my sister stores, (Scripts, Sounds and Holiday) will also remain available on the Marketplace. However, my in-world store locations will be closing in the near future.

Due to a combination of events, including limited time for upkeep to the servers, code, and customer serviceâ as well as personal financial difficulties during this unique time in our (real) world's historyânow, unfortunately, seemed like the right time to make these changes.

I am deeply sorry for the trouble that this may cause you, but I appreciate your years of continued support. You have all made my Second Life an amazing experience. I plan to remain active in-world, and hope to explore some of the amazing places you have created in this virtual world for years to come. Thank you.

Sincerely,
Alicia Stella

Web-Based Products No Longer Supported

ASD Tipping Server
ASD Raffle Systems
ASD GiveAway System
ASD Delivery System

ASD Camper Server
ASD Visitor Tracker
Group Info Board
Profile Picks Scripts
Group Info Scripts

Also, plugins for the above products such as the Most Tipped/Big Tipper Boards and Raffle Entry Plugin will no longer work as well.

Any devices that optionally could connect to any of the above devices should still work, including Tip Jars, but you will need to remove the channel or ID number from their settings notecards.
