Four new designs have been added to the [ASD Group Info Board](#) set, the first board in Second Life that can show how many group members you have. All owners were sent the new version. IM Alicia Stella in-world if you did not receive the new set.

The scripts have not changed, only the 4 new object designs were added. The new designs incorporate sculpts to create a unique and attractive look.

In addition to the new objects, the price has been lowered to L\$400. So now's a great time to pick up a set for yourself!
