## [Tipping Server Email Errors \[Fixed\]](#)

Category : [Announcements](#)

Published by Alicia Stella on Aug-15-2012

We're working on correcting some problems with the system emails. Tipping Server Daily and Weekly Emails may not be sent out or you may receive doubles over the next few days.

The issue should be sorted out soon and I apologize for any inconvenience. Log into Web Tools to view your Transactions and Stats in the meantime.

Also, if you have registered with the [webtools site](#) and have not yet been approved by moderator please IM me in Second Life or email me at [contact@aliciastella.com](mailto:contact@aliciastella.com) (As part of the email issues your activation notices may have been lost.)

[This problem should now be fixed, let me know if you're having issues.]
