NEW PRODUCT: Web Badge Plugin for Visitor Tracker

Category : Announcements
Published by Alicia Stella on Oct-22-2014

This plugin allows you to display your place's Visitor Counts on your website or blog. You may also link to and share publicly viewable Statistics and Counts pages with anyone, without them having to log in or join the web tools website.

This plugin requires the ASD Visitor Tracker, sold separately. More information below.

Special Features

â•¢ Display Visitor Counts on your Website or Blog
- Embed badges using provided HTML code
- Your site or blog must allow iframe code to work

â•¢ Link to & Share full Statistics Page for your Tracker
- Guests can view pages without having to join or login to Web Tools site
- Stats include graphs for: Last 24 Hours, Last 7 Days, Last 30 Days, Last 90 Days, and Last 365 Days

â•¢ Option to Hide/Show Place Name at top of pages

Buy on Marketplace| Purchase in Second Life

Note: This plugin may be applied to one Tracker ID only. Multiple copies of the plugin would need to be purchased if you own more than one ID and wish to use Web Badges for each.

This product requires the ASD Visitor Tracker, sold separately.
